Employer's Guide to

MISSOURI APPLICANT PROCESSING SERVICES

Fingerprint-based Applicant Background Checks

A partnership of the Missouri State Highway Patrol
Criminal Records and Identification Division
and
L-1 Enrollment Services

We understand it is important for fingerprint-based applicant background checks to be processed quickly, accurately and with as little hassle as possible. Employers, licensing agencies, applicants and public safety depend on it.

To better serve applicants, agencies and employers, the Missouri State Highway Patrol, Criminal Records and Identification Division (CRID), has partnered with L-1 Enrollment Services to provide for the electronic capture and processing of fingerprint-based criminal record checks. Processing centers are located throughout the state to take applicant fingerprints and identifying information for electronic submission to the CRID for processing. All processing will be performed by CRID personnel; no criminal history information will be available to L-1.

Advantages of Electronic Submission

- ✓ Convenient locations for applicants throughout the state
- ✓ No messy ink
- ✓ Fast response time for employers
- ✓ Convenient reporting options for employers
- ✓ Added security in confirming fingerprints are from individual submitting application
- ✓ Frees up agency/organization resources previously allocated to fingerprinting

The Missouri State Legislature has mandated that fingerprint-based background checks be conducted for paid or volunteer employment or licensing in a wide variety of areas such as child care, health care, educators, school bus drivers, security, etc.

The present system that requires submission of paper fingerprint cards, although effective, takes several weeks to process. The Missouri Applicant Processing System (MOAPS) has been implemented to give employers and licensing agencies an option to complete the process in **days** rather than weeks.

Options

Electronic Submission:
